## Holiday and Weekend Financial Bonanza For Business Places

### Lake Villa Provides Fireworks for Community Sunday Night

From a business standpoint July 4 and the weekend that preceded it was one of the biggest in the history of Antioch.

Sales skyrocketed, especially for the food stores which were practically cleaned out.

An urgent plea for additional stocks for the Atlantic and Pacific Tea Co. store from its Chicago warehouse was denied because union truckers were not available.

Banks were said to have been drained of their small change to handle the vast amount of business that resulted from an inflow of Chicago people to nearby lake resorts.

As was expected Police Officer Walter I Scott and his staff were kept busy 24 hours a day handling traffic. On Sunday, the vast crowds that attended St. Peter's church for the hourly services kept the patrolmen busy handling traffic around the church.

The fact that Rte. 45 in Wisconsin was closed, shunted much traffic over Rte. 83 through Antioch.

Traffic accidents for the most part were of a minor nature and the police experienced very little trouble with the drivers.

Practically every resort was filled and people were turned away. At Sherwood Park, Lake Villa, 30,000 persons paid admission over the three-day holiday. The park was filled on Sunday. Also enjoying a similar business was the Cedar Lake Park beach of Donald Sherman.

An estimated 2,000 persons saw the fireworks display at Lehmann Park in Lake Villa Sunday evening. The event was mistakenly reported for Monday evening, but the word of the exact date got around quickly enough for people to assemble. The firemen sponsored the exhibit; a professional did the firing of the display, and the people of the community paid the expense of the fireworks.

So successful was the Lake Villa exhibit that Antioch firemen are considering staging a similar display next year.

"We take the fireworks away from the kids and then don't give them something safe in their place," complained Fire Chief Edgar Simonson, who said that he is in favor of a fireworks display next year.

## June Weather Normal; Antioch Escapes Hail July 4, Rain July 6

The month of June gave Antioch seasonable weather, although it was a little on the cool side at first. The warmest for the month, according to Roy Kufalk, cooperative weather observer, was 88 on the 30th, and the coldest was 46 degrees on the 10th. The rainfall for the month was 5 1/4 inches with the largest amount—1 1/4 inch—falling on June 14.

So far this month the warmest was 93 degrees on both July 3 and 4. Antioch escaped a heavy rain yesterday afternoon and both rain and hail Monday.

The hail storm struck Lake Villa, and the rain yesterday deluged Fox Lake.

It was just a year ago yesterday that the big wind storm struck Kenosha County, Wis., Winthrop Harbor and Zion, Ill., doing much damage.

### Lake County Dairymen Sell Registered Cows To South Americans

Three Lake county dairymen have sold registered Holstein-Friesian cows to dairymen in the Caracas area of Venezuela according to the Holstein-Friesian Association of America which has headquarters at Brattleboro, Vt.

The dairymen are Henry Wegener of Ingleside, J. G. and H. J. Bonner of Grayslake, and Grace Rooney of Grayslake.

South American countries are buying many of North America's best Holsteins to improve their herds.

When Mrs. William Just of Waukegan went to the International Airport at New York last week to take a plane for Europe, who did she meet but Ronnie Arndt of Antioch, who is an S. A. S. passenger agent. He and Mrs. Just posed for the camera man. Mrs. Just and her mother, Mrs. Carl Larson of Concordia, Kan., will visit the latter's home on an island off the Swedish coast.

## American Legion Carnival Opens at High School; To Crown Queen Contest Winner Sunday Night

### No Fatalities During Holidays in Lake Co. Squad Gets 3 Calls

The Independence Day holiday passed with no fatalities in Lake county but there were a number of accidents.

Mrs. Margaret Black of South Artesian st., Chicago, received a bad laceration of the left leg when the boat in which she and her husband and sister-in-law were riding at Kadlec's resort at Loon Lake was struck by a speed boat.

It is believed that abrasions about her back and knees were caused when the propeller of the speed boat struck her. She and the two others, Francis Black and Margaret Soltis, also of Chicago, managed to keep afloat until they were picked up by nearby fishermen.

The driver of the motor boat, Robert Spachmar of Riverside, Ill., promised to pay for the damage.

The Antioch Rescue Squad with Charles Larson in command gave the woman first aid and turned her over to the care of a physician. The accident occurred at 2:20 p.m. Monday.

Two hours later the Rescue Squad rushed to the Archie Tokic home on Circle dr. in Feitler's subdivision where a leaking refrigerator spewed fumes through the house. Mrs. Tokic was overcome and it was necessary to use oxygen in reviving her.

A third call, at 9 p.m., was at the intersection of Rtes. 173 and 41 where two cars collided. Treated for lacerations were Blagoje Stogovic, 36, and Drobrijev Sulla, 45, Milwaukee. The driver of the other car was unhurt.

### Vern Gerred, 68, Dies in Arizona

Funeral services were held at 3 p.m. Tuesday at the Ray-Burnett funeral home at Libertyville for Vern Gerred, 68, whose death occurred in Tucson, Arizona.

Services were conducted by the Rev. Thomas M. Pender of Waukegan. Interment was in Lakeside cemetery, Libertyville. Masonic services were conducted Monday evening at the home.

Survivors are his wife, Gertie; his daughter, Mrs. Lenore Furgi of Waukegan; Elmer Hunter and his aunt, Mrs. Addie Zimmerman, attending the funeral services.

### Another Claim for the \$40,000

A third party will soon claim the \$40,000 found in a Waukegan building by Albert Sorenson of Petite Lake rd. An attorney for Edward I. Asher, owner of the building at 538 Genesee st., was given 20 days by Judge Bernard M. Decker to file a petition of intervention in the case. He bought the building formerly owned by Mrs. Jane Sleskin, who is claiming the money was hidden by her sister, the late Mrs. Mary Funk Asher, an auto dealer, said he was filing merely to protect his interests and rights.

Pfc. Gordon Gebhardt of the Technical Air Corps reconnaissance squadron, son of Mr. and Mrs. Walter Gebhardt of Lake Villa will receive his discharge from service Saturday after having served 4 1/2 years. A former employee of the Antioch News, he visited friends in this village Tuesday and Wednesday.

When Mrs. William Just of Waukegan went to the International Airport at New York last week to take a plane for Europe, who did she meet but Ronnie Arndt of Antioch, who is an S. A. S. passenger agent. He and Mrs. Just posed for the camera man. Mrs. Just and her mother, Mrs. Carl Larson of Concordia, Kan., will visit the latter's home on an island off the Swedish coast.

## Township Will Begin Drive To Force Collection of \$10,000 In Back Tax

### Trustees Investigate Village Sales Tax to Relieve Urgent Needs

#### Report Village Water System Furnishes 136,000 Gallons Daily

The village board Tuesday evening asked Atty. Edward C. Jacobs to investigate the new state sales tax permitting a half cent village sales tax.

The tax would be in addition to the half cent tax which the state added to its previous 2 cent sales tax, and receipts would be applied for local expense.

Need for the half cent tax is found in additional help and for off street parking.

The trustees were told that Charles N. Ackerman, owner of property on Broadway is not only denying its use for carnival purposes but is considering fencing the grounds off in denying its use for public parking.

With no communications for consideration the board spent most of the evening discussing street, water and drainage problems.

Trustee E. H. Glenn of the Water committee reported that the village water system is pumping an average of 136,000 gallons daily.

A three month test, said Glenn, showed that 12,400,000 gallons were pumped and that of this amount 10,272,600 gallons were metered. The difference was lost either through flushing of mains, leaks, and fire usage.

Revenue for the sale of the metered water was \$1,789.63.

The cost of electricity to operate the pump during that time was \$486.34, and the cost to pump the entire amount was \$4.54 per 1000 gallons. The average revenue was 7 1/2 cents a 1,000 gallons.

The water sold represented 82.8 per cent of the water pumped.

The pumping system is not yet up to its peak of efficiency and the trustees discussed ways and means of improving it.

Permission was given by the board to construction of an office building, 40 x 40 feet in dimension by Lester Osmond, Jr., on Rte. 173, off Rte. 59 next to the Standard Oil Station.

It will be occupied by Atty. Richard Seyth and Bernard Osmond, insurance agent.

Trustee John Blackman said that the work of sealing the walls of the 100' beds at the sewage disposal has been completed. Indications are that gravel not sufficiently washed permitted the walls to crumble.

The trustees discussed the possibility of connecting a road of the new Powles subdivision with that of the Warriner subdivision so that the present deadends can be cleared of snow. The matter calls for investigation of the plats to determine location and ownership.

The board expected to act on the order for an interim census, but a letter from the Chicago office of the U. S. Bureau of the Census failed to contain the application blank as was intended.

### Chicken Barbecue at Grass Lake Sunday Success for Scouts

While the flock of the Robert H. Hart farm on Grass Lake rd. escaped the barbecue spit of the Grass Lake Boy Scout barbecue Sunday, other poultry did not and there was a sell-out of the 400 chicken diners.

Two hundred chickens were roasted by the use of 400 pounds of charcoal in a 40-foot pit.

The profit will be used to purchase fuel oil for the Scout House. Scouting activities are sponsored by the Grass Lake School PTA with Robert Hart as institutional representative. It was Hart who initiated the chicken barbecue idea and supervised the pit construction.

Mrs. Francis Burke, hostess and publicity chairman, stated that words could not express the community value and pride created as the committee worked so diligently and democratically for a worthy cause which they are convinced will decrease juvenile problems. They plan to make it an annual affair.

Ralph Tutein, Cub Scout leader, served as general chairman for the event whose set up and tables were guarded the previous night by Boy Scouts who camped beside them. They were Richard Burke, Bill Hart, Lester Hirsh, Jr., Robert and George Anzinger and Lad Shunne son.

### Antioch Band Played Stormy Numbers and Rain Ended Concert

Although the weather was threatening when the Antioch band assembled in uniform Tuesday evening for the bi-monthly concert, the members decided to play in their new uniforms anyway.

The started out playing "The Thunderer."

The weather immediately became more threatening.

Then they played "Old Man River" and the water commenced to fall in a shower.

The concert ended abruptly with a "March," and camp away the band did.

The special solos were held over until the next concert.

Next Tuesday the band will play for the patients at Downey Veterans hospital. The members will assemble at the high school and those who do not have transportation will be provided it.

### William E. Cooper, 84 Retired Industrialist, Dies of Heart Ailment

William E. Cooper, 84, Linden Lane, Antioch, died Tuesday morning at 8:45 at St. Therese hospital, Waukegan, of a heart ailment.

Mr. Cooper was born June 27, 1891 at Yorkville, Ill., moving to Chicago at the age of 17, afterward moving to Oak Park where he lived for 30 years before moving to Antioch in 1933.

He was united in marriage to Miss Antoinette Winchester, June 17, 1896. He was a past president of the Chicago Screw company and on retiring he moved to Antioch.

Survivors are his wife Antoinette, a daughter, Mrs. George McDonald and two grandchildren, John and Sue.

Funeral services were held at 2 p.m. today at the Strang Funeral home, with the Rev. Edmund Hood of St. Ignatius' Episcopal church officiating. Interment will be in Forest Home cemetery at Forest Park.

### Legion and Auxiliary To Install Officers in Joint Meeting Aug. 18

Plans for a joint installation of officers on August 18 have been made by the American Legion and its Auxiliary.

The Legion elected officers last Thursday night.

John W. Horan, son of Past Cmdr. John L. Horan, was elected commander. Other officers are W. V. Lahti, senior vice commander; Frank Gratke, junior vice commander; Edward Dockry, chaplain; Douglas A. Dean, finance officer; William R. Vos, sergeant-at-arms; Hans G. Molgard, bogardus officer; and Oscar Onstad, alternate.

Molgard and Onstad will represent the post on the Lake County Veterans Administration Commission.

Delegates to the department convention Sept. 1, 2, 3 and 4 at Springfield are John W. Horan and F. A. Swenson, with Walter Reinhardt and W. V. Lahti as alternates.

### Pick Delegates

Horan, Gordon Wald, W. V. Lahti and the newly appointed post adjutant will be delegates to the 10th District Council.

Outgoing commander, Dan H. Lighsey appointed Oscar Onstad, Dr. Harry Mizock, and F. A. Swenson as auditors.

Also elected at the meeting were four directors of the Antioch American Legion Home, Inc. Outgoing directors are William E. Brook, Edward J. Frazier, and Benjamin Miller. Serving to 1956 are F. A. Swenson, John L. Horan and Paul Erickson and serving to 1957 are Harry A. Mizock, Daniel H. Lightsey, and John W. Horan.

Officers of the board are F. A. Swenson, president; Edward J. Frazier, treasurer; and John L. Horan, secretary.

Three directors elected to serve three years are Edward J. Frazier, W. V. Lahti, and Gordon Wald.

Roman B. Vos was elected director to serve the balance of time for another year in the place of Paul Erickson who is moving to Florida.

Mr. and Mrs. Herman Holbek are the parents of a daughter, born Tuesday at Victory Memorial hospital where she had been a patient seven days. Born in Waukegan July 29, 1922 the daughter of Lewis and Laura Stedman, Mrs. Garwood made her home in Grayslake until a year ago. Surviving are her husband, Samuel Garwood, and a son, Samuel Lewis Garwood, her parents, and a sister, Iva Wedding of Wheeling. The funeral service was held at 9:30 a.m. today at St. Joseph's Church in Round Lake with interment at Ascension Cemetery, Libertyville.

### J.P.s Told To Begin Action Against 238 Delinquent Taxpayers

A report on delinquent personal property taxes at a meeting of the Antioch township board Wednesday night revealed that approximately \$10,000 in unpaid personal property taxes for 1953 is still outstanding, and the board acted to start a drive immediately to enforce collection.

Supervisor Lloyd E. Murrie said today that only 78 per cent of the taxpayers have paid their 1953 personal property taxes and that this percentage is below the median for the county. Waukegan township, where a strict drive has been operated for many years, heads the list with a total of 92.36 per cent paid. Avon township is last on the list with a percentage of 59.63 paid. Average for the county is 85.54 per cent.

Four of Antioch township's justices have agreed to aid in the drive to collect the delinquent taxes and the names of those who have not paid were divided among them for collection. Tentative plans call for sending a collection letter to each of the delinquents, and if the taxes are not paid to proceed to enforce collection.

Murrie said that the additional cost of collection will be borne by the taxpayer in that the court costs and the constable's fee for serving of a summons will be collected in addition to the unpaid tax amount. Many of the amounts are small, he added; but in all fairness to those who have paid, that all should share in the cost of government.

To enforce collection, the justices can award judgments against the delinquent taxpayers and then act to seize and sell any property of the taxpayer to satisfy the judgment. Complete co-operation of the State's Attorney's office has been promised.

**Issue Tax Anticipation Warrants**

Other action at the Town Board meeting saw authorization of \$2,000 in tax anticipation warrants to carry the township government until tax money is received this fall. Five hundred dollars was allocated for the poor fund and the balance of \$1500 for the general fund. Murrie said that the township treasury was depleted when he took office in April. He added that the Town Board has adopted a realistic policy with regard to tax levy and that while the levy for 1955 set at the annual town meeting, will provide sufficient funds for operation of the township, that this money will not be forthcoming until the fall of 1956, and that in the meantime there will be a shortage of funds for township operation.

### Band Tag Day Exceeds Expectations of Group

The Antioch Grade School Band Parents Association is more than pleased with the results of the tag day Friday and Saturday. An amount in excess of \$600 was obtained and this will be used for the purchase of instruments of a nature that the children themselves could not buy, and will be a part of the regular band equipment.

## Economic Highlights

Today, in and out of government circles, there is much talk about bigness in business and what, if anything, should be done about it. This talk has been stimulated by the great numbers of business mergers that have taken place in late years. The issue, regardless of one's view of it, is obviously important. An excellent discussion and review appeared in a recent issue of the New York Times Magazine, written by a world-famous economist, Professor Sumner H. Slichter of Harvard. He urges "Let us examine the good and the bad aspects of bigness, and in so doing let us attempt to reach conclusions concerning the kind of public policies that would give the country both vigorous competition and high technological efficiency."

Dr. Slichter's article cannot be adequately covered in a brief space, but certain points deserve wide understanding. It is true that big businesses are far bigger than they used to be—the assets of the 15 largest manufacturers today, expressed in dollars of constant purchasing power, are six times as large as the assets of their equivalents of 1900. But other elements of the economy have grown vastly too. Dr. Slichter cites labor—"the 10 largest unions at present have 15 times as many members as the 10 largest unions in 1900."

Moreover, the situation varies greatly from industry to industry. According to Dr. Slichter, "Among 452 manufacturing industries, in only 46 do the four largest companies produce 75 per cent or more of the output; while in 138 industries the four largest companies turn out less than 25 per cent of the output." And bigness is not necessarily permanent. For example, only one of the 15 largest manufacturers of 1900 is in that select group today. This change, Dr. Slichter says, is largely "a result of the rise of new industries."

Then he deals with the marked change in thinking on the subject of bigness. A traditional criticism was that big business behaved monopolistically and used its power to prevent competition and keep prices high, and was slow to expand. That criticism is rarely heard these days, for it simply does not square with the facts. Some of the biggest businesses are engaged in the toughest competitive scraps, are spending money at a vast rate for expansion, and are doing everything conceivable to woo the consumer. So present-day critics argue instead that big firms are doing more than their share of growing, and advocate, in Dr. Slichter's words: "(1) that mergers of companies be considerably restricted, and (2) that a legal limit be placed on the share of sales in an industry that any one concern might be permitted to make."

Dr. Slichter finds that these "new arguments against bigness are extraordinarily weak." A limit on size, he states, "would interfere with the freedom of consumers to buy the goods of their choice," and would have many other ill effects. He believes that mergers should be encouraged for the most part, and prohibited only when the proposed mergers concern large companies within the same industry.

and the result would be weakening of competition. He especially favors mergers of companies in different industries, on the grounds that "they usually invigorate competition."

At the same time, Dr. Slichter feels that in various cases the division of companies, on a voluntary basis, into smaller units would be advantageous to all concerned and should be encouraged. He advocates an unusual incentive here—the stockholders be given certain tax benefits when such a division takes place.

All in all, the problem is a complex one. It is certainly true that arbitrary and narrow restrictions on business growth would be a heavy brake on progress. At the same time, almost everyone wants to prevent monopoly. And there is one point of the greatest significance here, that is implied as well as stated throughout Dr. Slichter's article—monopoly and bigness are not necessarily the same thing. Mere size is not a danger in itself.

## The Newspaper Tops the List

Alfred G. Peterson, who is president of the National Savings and Loan League, has this to say about advertising: "I feel that advertising is a very profitable investment. But we should not buy advertising blindly. We should give careful consideration both to the appeals and the media we use."

The medium which tops the list is the medium that reaches the greatest number of people at the lowest cost. It is my opinion the newspaper is that medium. I place the newspaper at the top of the list because it reaches the local market. All of us are really conducting local businesses. We may be bound together into a national industry, but our spheres of influence are entirely local.

The newspaper reaches precisely the people we want to reach."

"Well spoken, Mr. Peterson!

\* \* \*

## By-Products Are Important

Everyone has heard the old saying that the meat packers "save all of the pig but the squeal." That's just about literally true. All manner of non-edible by-products are processed and sold. The revenue they bring to the packers helps give producers a better price for their livestock, and consumers a lower price for their meat.

Any change in the by-product market situation, as a result, is an important matter. That has happened in the case of hides. Over recent years their value has sharply declined—and this has had a tremendous effect on the price packers could afford to pay for steers.

A spokesman for a packing company described what has happened. In 1910 the price of steer hides amounted to about 13½ per cent of the live cost of the steer. In 1954, the hide's value was down to about three per cent of the live cost. In addition, the handling costs have gone up—labor and salt has expanded without a corresponding increase in domestic demand for leather, and this too has resulted in downward pressure on prices. The only bright spot has been an increase in the sale of hides abroad.

The spokesman then urged a three-way approach to the problem. First, is research in all phases of the hide and leather industry, directed toward improving the quality of the product and finding new uses for it. Second, is increased advertising and promotion to acquaint consumers with the superior value of leather for many uses. Third, is to modernize the methods of handling hides. This, it is hoped, would materially change the picture for the better.

## Which is Cooler

## RESULTS OF RECENT IMPARTIAL RESEARCH:

Independent engineers of the R. W. Hunt Co. (who made these tests) say this: "The readings on the thermometers pictured are typical of results obtained in separate tests of 3 modern flame-type ranges and 3 modern electric

ranges. Ovens were in use for over 2 hours in each case. The flame-type ovens actually increased kitchen temperatures an average of 10 degrees more than the electric ovens." (All ranges tested were top brands.)

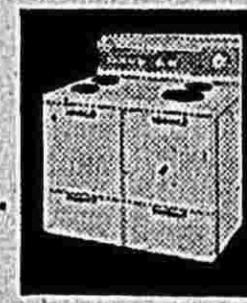

*The answer: Electric cooking keeps your kitchen up to 10 degrees cooler!*

No woman enjoys cooking in a hot kitchen. And, with a modern electric range you don't have to. But there are many other reasons why you'll like electric cooking.

For example, nothing cooks faster than today's electric ranges. And the heat is so evenly distributed you can forget about "pot-watching."

There are no burners to clog up, either. Broiler and oven turn on automatically. (And wait until you taste steak broiled with the juices inside—electrically!)

Heard about our New Share-the-Cost Installation Plan? It can save you important money on installation of a new electric range. And modern wiring means your TV picture improves and all appliances work better. Also, you can install an air conditioner, clothes dryer and other appliances quickly and cheaply. Your dealer has details now.

New electric ranges  
low as \$2.16 a week,  
complete, installed!

**Chevrolet's Super Turbo-Fire V8 with 180 hp.**

You can spot this one by the twin tail-pipes. No matter what you drive, you're going to see twin-exhaust Chevrolets pulling away—in traffic, on the toughest hills, on the long straightaway.

Unless you have a "Super Turbo-Fire V8" of your own. And then you'll know what it's like to pilot the car that sets the pace for everything else—and doesn't pause to read the price tags!

What makes the Super scat? Chevrolet's superb valve-in-head V8, with the shortest stroke in the industry, the most power per pound, and the only

12-volt electrical system in its field—all plus a four-barrel carburetor and free-breathing twin exhausts.†

Want to sample this silk-lined cyclone? Just give us a call, any day this week, and we'll be proud to show you just how hot a V8 can be.

\*Optional at extra cost.  
†Station wagon models have single exhaust pipes.

## Bernard Guillaume Gets Shark on Fishing Trip Off Florida in Gulf

An article in the St. Petersburg Times tells of a fishing experience of Bernard Guillaume of the Ebb-Tide Motel, formerly of Antioch. Said the Times:

"Bernard Guillaume, who aspires to be a tarpon fisherman hooked into something that outfought any tarpon ever caught. He was fishing with Arthur Moulin in the charterboat Eileen off Madeira beach, when an eight-foot 300-pound shark took his bait. The battle which followed looked better for the shark than for the angler for some time, until assistance in the form of a lead pipe in strong hands finally battered the brute into submission."

To the Antioch News Guillaume wrote that the captain of the boat told him at the outset that he had a shark.

"I didn't think I would be so lucky," wrote the former Antioch resident. "The fish kept going under the boat and I had fear the tackle would be cut anytime. We were about three miles out in the gulf and the sun was hot, but the perspiration was from excitement and not the weather."

"After about two hours the shark seemed about played out. One of the men tried to put the grapple into the mouth of the shark as it came alongside the boat. As he put the grapple into the monster there was quite a skirmish. The fish jumped into the air, pulled the hook out of the grapple and the fisherman into the gulf. We finally made a lasso rope and anchored the shark alongside the boat. With a lead pipe we finally beat the fish into submission. It took three of us to haul it on the small boat as it weighed 300 pounds and measured eight feet."

"It was exhibited at the Madeira Beach causeway for sight seeing tourists. This was quite an experience for an old Antioch resident who has just got his shoes full of sand."

### Polley Attends Meetings Of Business Ed. Groups

Warren Polley, commercial teacher at Antioch Township High School will go to Urbana, Ill., Sunday to attend the initiation and banquet of Delta Pi Epsilon, honorary graduate business education fraternity, and during the two days following will attend the summer business education conference at the University of Illinois.

Polley went to Chicago Monday and attended the United Business Education Association meeting held in conjunction with the National Education Association Convention. At this meeting the Chicago area organization of which he is president, united with other central states groups in joining the United Business Association under the title of Chicago Regional United Business Education Association.

The N. E. A. Convention was attended by Principal Albert Dittman of A. T. H. S.

## Tips on Traffic Safety

By  
CHARLES F. CARPENTIER  
Secretary of State

A recent cartoon showed a woman bringing her car into the repair shop and saying to the mechanic, "There's something wrong with it—it keeps hitting things."

If your car seems to have developed a tendency to hit things or to come uncomfortably close

to them, it might be a good idea to do a little checking up on yourself. First of all, have your eyes examined. We may not like to admit it, but with many of us, our eyes become weaker as we grow older, and it is usually such a gradual process we don't notice it developing. A year or two can make a great deal of difference.

If that doesn't appear to be the trouble, consult a qualified driver training instructor. Over a period of years, it is easy to fall into bad driving habits without realizing it. A trained person can detect them and advise on how to correct them. A little early diagnosis can save a lot of future pain.

A copy of the completely new "Rules or the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

### Engagement Announced

Miss Janice Runyard

#### Runyard-Miller Rites Announced for Aug. 13

The engagement of Miss Janice Runyard to Leonard Miller, son of Mr. and Mrs. Joseph Miller of Hartland, Mich., is announced by her parents, Mr. and Mrs. James E. Runyard of Antioch. The wedding will take place August 13 in Antioch.

#### ALTAR, ROSARY SOCIETY TO MEET AT 8 P. M. MON.

The July meeting of the Altar and Rosary Society of St. Peter's church, Antioch, will be held at 8 p. m. next Monday in the church hall. After a short business meeting cards will be played. Mrs. Anthony J. Scully is chairman, and will be assisted by Mrs. Richard Carlucci, Mrs. J. Donald Chiapetti and Mrs. Paul W. Kessinich.

#### Card of Thanks

The Antioch Grade School Band Association and the band members wish to thank all who contributed funds or donated their time in making the first annual tag day such a grand success.

### Rainbow Girls to Dine As Guests of Swanson

The 50 Antioch girls—members of the Order of the Rainbow, and their 10 chaperons who will attend the Shrinearama next Wednesday night at Soldier Field, Chicago as guests of Fred B. Swanson, Antioch, will also be his guests at dinner at the Edgewater Beach Hotel before the festival. The hotel is breaking rules in opening the dining room for the group an hour ahead of time. The bus load of young people will leave Antioch at 3:30 p. m.

#### MARRIED IN KANSAS CITY, MO.

Harry L. Nelson, son of Mr. and Mrs. S. Boyer Nelson, and Miss Helen Vincent of Kansas City, Mo., were united in marriage in Kansas City, June 30. The young couple plan to make their home at Rock Lake, Wis. Harry is associated with his father in the Nelson Real Estate and Insurance business.

• • •

Mr. and Mrs. Nason E. Sibley were host and hostess at a family dinner at their home at Bluff Lake Monday. Those entertained were Mr. and Mrs. Maurice Stipey of LaJolla, Calif., Homer Tiffany of Dallas, Texas, Mr. and Mrs. Richard Carter and children of Dayton, O. Al Tiffany and children of Geneseo, Ill., Mr. and Mrs. Charles Tiffany and family of Waukegan, Misses Deedie and Mary Tiffany and Mrs. B. R. Burke of Antioch. Mrs. Burke entertained the group at her home on Sunday.

• • •

#### Have Good Fishing

A five pound pike was caught in Lake Marie recently by Anthony Christiano and his daughter, Mary, along with many crappies, bluegills and bullheads. The Christiano family is spending an enjoyable three-week vacation in the Little Elm cottage of Mr. and Mrs. H. A. Mau.

• • •

Mr. and Mrs. Roy Wrigley of Alamogordo, N. M., left last Thursday after spending the past ten days with their daughter, Mrs. Wendell Nelson and family.

• • •

Harold Gaston and Walter (Sonny) Shepard left Antioch Friday for a two week vacation at Woman Lake, Canada.

• • •

### Moose Auxiliary Installs Officers at Open Meeting

Officers installed last Thursday evening by the Antioch Women of the Moose in a public service at the Antioch Grade School included, left to right, Mrs. William J. Meyer, senior regent; Mrs. Homer J. Toft, junior regent; Mrs. Frank E. Kennedy, Jr., junior graduate regent; Mrs. Robert F. Horton, recorder; Mrs. Edwin B. Lindstrom, treasurer; and Mrs. James N. Long, chaplain. (Courtesy Waukegan News-Sun.)

### Zeien Playground Serves Channel Lake Area

The new blacktop court for basketball, badminton, volleyball, etc., above is property of Mr. and Mrs. Paul Zeien, and is a part of the program which has served youngsters of Channel Lake for many years. The Zeiens provided equipment for use of all youngsters of the area for many years. Other equipment provided includes a baseball diamond, and a trampoline table. About an acre is used for the playground and all cost of the playground has been borne by the Zeiens, who apparently believe in doing something to help youngsters become good citizens, rather than talking about "juvenile delinquency."

### Engagement

Miss Patricia Ann Patejdl

Miss Patricia Ann Patejdl, whose engagement to Walter A. Kullgowski of Antioch, is announced by her parents, Dr. and Mrs. James Patejdl of Palos Park. The wedding date has not been set.

### LADIES' AUXILIARY OF EPISCOPAL CHURCH TO HOLD RUMMAGE SALE

The Ladies' Auxiliary of St. Ignatius' Episcopal church plan to hold a meeting July 13 at 1:30 at the Parish hall. All plans for the rummage sale have been completed and the ladies will work on setting up the sale which will be held Friday and Saturday, July 15 and 16. The second meeting of the month will be held Wednesday, July 27, at the home of Mrs. Curtis Wells at 8 p. m. Assisting Mrs. Wells on the committee are Mesdames Virginia Magiera, Ruth Hallwas, James Stearns, Elsie Swanson and Marge Dalziel.

• • •

Mr. and Mrs. Roy Wrigley of Alamogordo, N. M., left last Thursday after spending the past ten days with their daughter, Mrs. Wendell Nelson and family.

• • •

Harold Gaston and Walter (Sonny) Shepard left Antioch Friday for a two week vacation at Woman Lake, Canada.

• • •

### Scene at IWU Music Camp

More than 130 high school students throughout the state of Illinois, music teachers and counsellors attended a summer music camp, sponsored by Illinois Wesleyan University on Lake Bloomington. The camp opened on June 13. Above Director Carl Neumeyer discusses program with a number of counsellors and teachers, among them Mary Ann Nielsen of Antioch, a IWU student.

### Grass Lake Chicken Tasted Good to Them

The Ray Yances family of Rte. 59, Lake Villa, were among the 400 who dined at the Grass Lake benefit barbecue Sunday. On the left are the Yances and their children, and on the right, Mrs. Yances' brother, Walter Erhard and wife and children and her father, Walter Erhard, Sr., of Riverdale, Illinois. (Warren Polley Studio.)

John Topcer, Jr., son of Mr. and Mrs. John Topcer, Sr., returned home recently after visiting his Mr. and Mrs. N. E. Sibley, at their lake home.

The Rev. Edmond Hood and Mrs. Hood were called to Champaign Monday due to the death of their grandfather. They expect to be home this morning. (Thursday).

## Mankind Devised Air Conditioning From Nature's Book

WASHINGTON—It took man until the 20th century to develop air conditioning, something nature's engineers thought of many years before.

The industrious honeybee has for more than 40 centuries regulated the hive's temperature. In summer well-organized fanner bees flutter about tirelessly, circulating air which maintains a pleasant atmosphere for brooding bees and removes excess moisture that would ferment the nectar.

Bees construct elaborate homes that suggest modern apartment hotels. The hive is honeycombed with thousands of nursery cells, each a sort of efficiency apartment where a single egg hatches and the larva grows to maturity. When a full-grown worker emerges, the worker bee "staff" thoroughly cleans the cell to prepare for the next tenant.

Like bees, ants and termites are master builders. African termites erect many-storied skyscraper nests. Leaf-carrying ants of tropical America dig underground apartments, some 30 feet wide and 8 feet deep. Worker ants venture out each day to cut pieces of leaves that are borne home like umbrellas. Masticated, the leaves serve not as food but as beds for fungus the ants grow to eat.

The mountain-beaver or sewellel, tunnels an intricate subway system with numerous exits. Its motive: swift, safe travel beneath dangerous traffic on the earth's surface.

## Chances of Seeing 65 Now Greatest

NEW YORK—About three out of every five American males who were 20 in 1910—those born in 1890—will still be alive to celebrate their 65th birthday this year. For women born in the same year the survival rate is even more favorable, the comparable proportion being slightly higher than seven out of ten.

The decline in mortality since the turn of the century has brought better chances of survival to each successive generation of Americans. While the gains have been particularly impressive in early life, substantial progress has also been made at the ages when most men are gainfully employed and when women bear responsibility for the care of a home and children.

Our younger generations undoubtedly will have an even more favorable record of survival than persons born before the turn of the century, because death rates have been decreasing since 1900 and are likely to decline still further in the future.

## Radio Debate Over Existence Of God

LONDON—Two middle-aged British housewives recently debated the existence of God over Britain's biggest radio network.

Mrs. Jenny Morton, 32, wife of a minister, made her appearance to challenge Mrs. Margaret Knight, psychologist and unbeliever. Two previous broadcasts by Mrs. Knight had brought demands from newspapers and clergymen for her suspension.

Mrs. Morton, a resourceful speaker, said Mrs. Knight's attack on dogma was misplaced. "Christian belief is more than that: It is that living experience of God in Jesus Christ into which, generation after generation, men have entered," she said.

She said the creeds and theology were "men's attempts to describe that experience."

Mrs. Knight contended that the decline of church-going revealed in statistics proved a decline in belief.

## U.S. Will Modernize Spanish Fleet By 20

MADRID—The United States Navy agreed to modernize the Spanish Fleet and the agreement provides that modern equipment will be supplied for an "initial group" of 20 Spanish warcraft. Other vessels are to enter the program later.

New armament, radar, and fire-control equipment are to be installed on the 20—destroyers, gunboats, corvettes, and mine sweepers.

The agreement is within the framework of the aid-for-bases accord between the two countries.

### Easy Arrest

POCATELLO, Idaho—Without moving from his chair at the County jail, Deputy Sheriff Earl Cutler arrested a man wanted on a charge of grand larceny.

Cutler said he served a warrant on Franklin Warren, 20, of Fort Hall, who was leaving the jail after visiting a friend.

## Atomic Automobiles, Energy From Sun, Predicted By 2000

ANN ARBOR, Mich.—By the year 2000, automobiles may operate on electricity from central atomic power stations and acres of land may be covered with mirrors to gather energy from the sun, the Dean of the University of Michigan College of Engineering believes.

Dean George Granger Brown predicted that the rapid decrease in the earth's supply of fossil fuels, coupled with increased emphasis on nuclear and solar power, will bring about a marked shift in the nation's pattern of consumption.

Greater use will be made of electricity from central atomic plants, he said, such as in the heating and air conditioning of homes and the powering of cars.

"The trolley car or trackless trolley may yet return to our highways," Dean Brown said, "and private cars on the main roads might take their power from an overhead line supplied by a central station."

Solar power is also in the offing, Dean Brown concludes, pointing out that a plot of land in New Mexico, 80 miles square and covered with mirrors, would meet the present requirements for work in this country if the mirrors had an efficiency of ten per cent. Latest laboratory devices already have been shown to utilize eight per cent of the sun's energy, he commented.

## Uranium Hunters Must File Claims

DENVER—Many a uranium prospector will find what he considers the BIG strike this year. But after finding it, what will he do with it? Chances are, if he hasn't filed the proper claim, he can lose his find to the nearest and most agile claim-jumper.

Uranium, like other valuable minerals, is found in the ground but to get it out and to the nearest mill requires filing a claim and working said claim. And, like everything else, there is a right and wrong way to file a claim.

On Federal lands, the first step is to mark the boundaries with four corner posts. A notice of lease application must be attached to one of the corner posts showing the name of claimant along with a location description.

This description should be in reference to a public land survey, or to a natural object or permanent monument. Within 60 days of recording the claim, a lease application must be filed with the Atomic Energy Commission.

Leases run for five years with a maximum of five three-year renewals. A minimum of \$100 worth of work is to be done on each claim per year. No royalties are charged for producing ore on federal lands.

## What Makes Homing Pigeon Stay on Course?

NEW YORK—What makes a homing pigeon fly home? That's a debatable question. Some fanciers believe homing or carrier pigeons merely follow an instinctive urge. Others think the sun plays an important part in guiding their flight. Still others say the birds are guided by a sense of smell.

Whatever the answer is, there's no doubt that the homing pigeon possesses a memory sense plus exceptional vision. His eye has extreme mobility in every direction, by virtue of six muscles. It also has an extra eyelid—a sort of transparent blinker which closes in flight to protect the eyeball against dust and wind and injury. Thus the pigeon actually wears spectacles provided by nature.

Homing pigeons have been used since long before the birth of Christ. The ancient Egyptians took them on sea voyages and sent back messages warning of hostile vessels. In wartime, the Romans harnessed them to their chariots and released them to summon relief legions as needed.

## Electric Stimulator Keeps Heart Active

PHILADELPHIA—Harvard University medical professor, Dr. Paul M. Zoll has announced that through the use of an electrical stimulator he has kept a human heart functioning as long as 109 hours after it stopped beating normally.

Through this stimulator, Dr. Zoll said, he has treated 27 cases of heart arrest, keeping the hearts going until they were able to function without assistance.

### Shooting Deputy

TYLER, Tex.—Miss Betty King, 22-year-old pistol expert is a deputy sheriff of Smith County. Her skill as a marksman, however, is confined to the pistol range. She is an office deputy, handling a police radio, bookkeeping and filing.

## Dairying Most Common But Farmers Pay Out Most For Poultry Feed

Dairy is the most common type of farming in this area, accounting for 32 per cent of all farms in Illinois, according to a publication just issued by the Department of Agricultural Economics at the University of Illinois. This area includes Boone, McHenry, Lake, Kane, Cook, DuPage and Will counties, all of which have similar type of agriculture.

So far as money spent for feed is concerned, poultry farms are the highest spenders in the area, averaging \$2,437 per farm in 1949, the last year for which information is available. Poultry farms were followed by other livestock farms, with \$1,984; dairy farms, with \$1,955; general farms, with \$861; cash grain farms with \$388, and other farms with \$318. Average for all farms

cash grain, 15 per cent; and other, 21 per cent.

The publication, called "Differences in the Market for Livestock Feed Within Illinois," reports that dairy farms are the biggest users of feed in the area. Those farms and the per cent they buy are poultry, 19 per cent; other livestock, 27 per cent; general, 5 per cent; cash grain, 6 per cent; and other, 10 per cent.

Henry Wegener, Ingleside, whose herd of 32 pure bred Holsteins averaged 1410 pounds of milk and 57.2 pounds of butterfat per cow, ranked eighth in fat production among the 1,709 herds in test in Illinois during

the month. The state average for May is 941 pounds of milk, and 35.6 pounds of fat per cow. Henry Wegener is a member of the Lake County Dairy Herd Improvement Association.

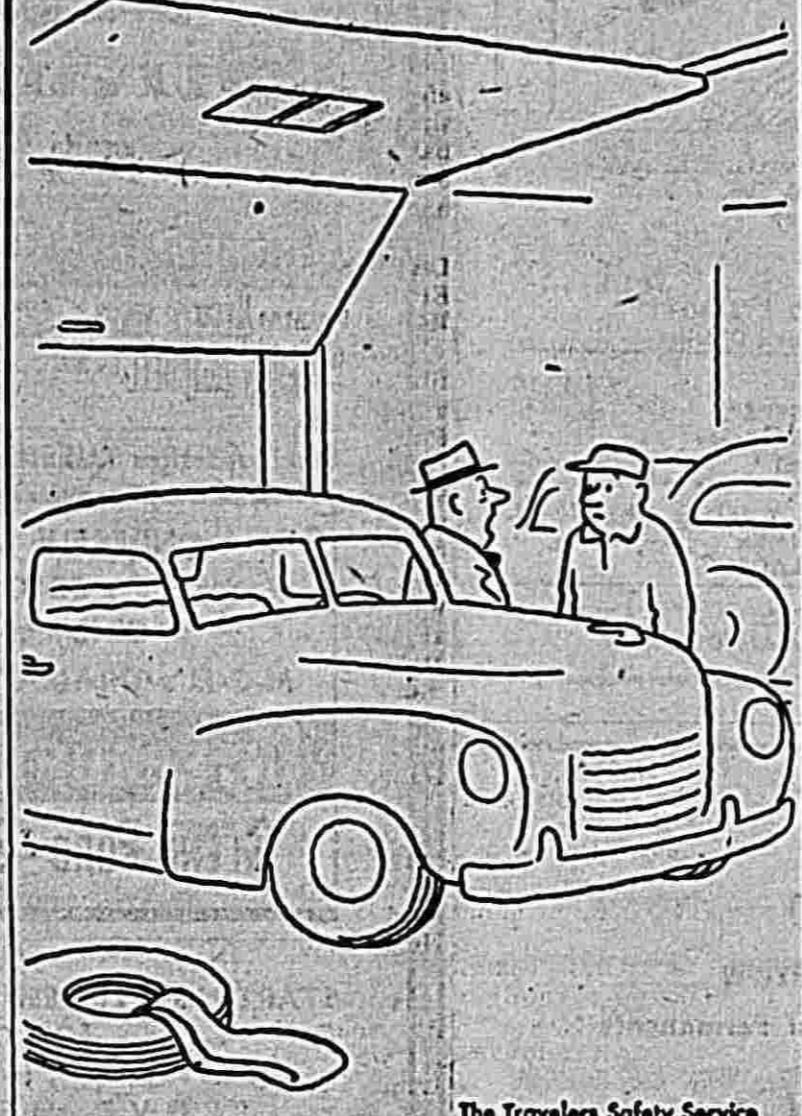

Mr. and Mrs. Preston Reckers of Antioch and Mr. and Mrs. Ed Kanis, Jr., of McHenry returned home Monday after a week's vacation in Canada.

He who is well disposed and well ordered within does not trouble himself over the extraordinary and perverse contortions of men.

The groundwork of all happiness is health.

GREAT TV, FORD THEATRE, THURSDAY, 8:30, CHANNEL 5

## LAKE VILLA

Two services of worship are held each Sunday at the Community church, one at 8:30 and another at 11 a.m. Many visitors are in the community now and are very welcome to the services.

Circle of No. 2 of the Woman's Society of Christian Service will meet Monday evening, July 11 with Mrs. Robert Rolin at her home.

Peacock Camp for Crippled Children has opened for the season at Crooked Lake and affords recreation and pleasure for many girls and boys.

Mrs. Kenneth Plummer spent last week at the Sherman hospital in Elgin for surgery and treatment and is recovering nicely at her home at the parsonage.

Mrs. C. B. Hamlin spent last Wednesday and Thursday in Conde's hospital at Libertyville for X-rays.

A large crowd attended the fireworks exhibition at Lehmann Park by the firemen on Sunday evening.

Mr. and Mrs. Windsor Dalgard entertained a number of relatives at a family picnic at their home last Sunday afternoon.

Mr. and Mrs. Lester Hamlin observed their silver wedding anniversary last Sunday, and Mrs. Hamlin's parents, Mr. and Mrs. Arthur Nauta of Waukegan, her sister, Mrs. George Beemsterboer and family of Chicago, her brother, Arthur Nauta and family of Brookfield attended 8 o'clock mass at St. Peter's church in their honor. Mr. and Mrs. Hamlin later visited their son, Charles in the Veterans hospital at Waukesha. Miss Lillian Klemm of Waukegan was also a member of the party.

Cedar Lake Camp Royal Neighbors will hold a picnic for its members on Wednesday afternoon, July 13, at the home of the oracle, Mabelle Selter at Grass Lake, and the Officers club will hold a meeting at this time. Each member will bring something for the picnic dinner and enjoy the day with friends.

Mrs. Bessie Stevens, a teacher in the school here a few years ago, now teaching in Georgia, was guest at the Albert Kapple home several days last week.

Mr. and Mrs. Clarence Bradec of Grand Ave. are receiving congratulations on the birth of a son at Victory Memorial hospital on Friday, July 1. They have a daughter Barbara who is seven.

Mrs. Virginia Smith entertained a number of ladies at a luncheon and party at her home at Buena Park last Wednesday afternoon.

Mrs. Georgia Avery and her guest, Mrs. Ruth Schumacher, also Mrs. Marie Hamlin and Mrs. Mayme Kapple spent last Thursday afternoon with Mrs. Lutie Boehm at her home near Wedges Corners on Rte. 45.

Mr. and Mrs. R. Barkling of Chicago, Mr. and Mrs. J. Popp of Birmingham, Alt., and Mr. and Mrs. R. Holyday of Fox Lake spent the holiday weekend with Mr. and Mrs. F. Emerson at Venetian Village.

Mrs. Russell Nickerson entertained a group of little folks at a party at her home on Grand Ave. last Friday afternoon in celebration of her son Tommy's fourth birthday.

Clayton Hamlin is caring for a broken arm suffered last week while at work.

Mrs. Harry Brownlee has been visiting her daughter, Mrs. Claudette Collins at Oklahoma City and welcomed her second grandchild, a son born to Mr. and Mrs. Collins, who also have a daughter.

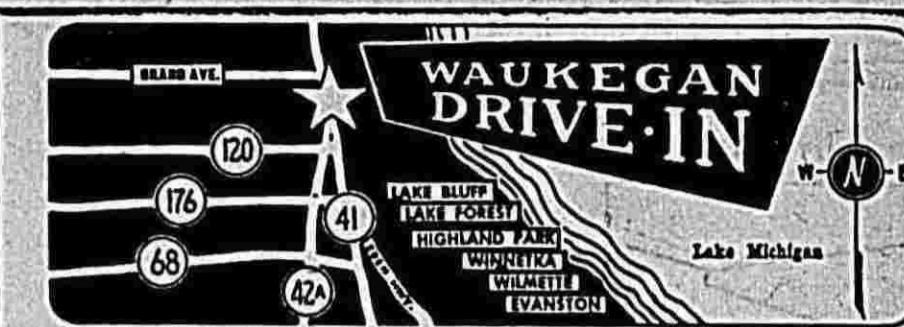

Mr. and Mrs. A. L. Jennings came last week from their home in Norton, Mass., to visit Mrs. Jennings' mother, Mrs. Gertrude Hamlin who broke her hip a short time ago and is a patient at Victory hospital in Waukegan, but is recovering nicely.

American Legion News.

The regular monthly meeting of the Lake Villa Township American Legion Post 1219 was recently held

at the Venetian Village Community hall, and nominations of officers for the coming year were held as follows: Commander, Harry C. Kraemer; Senior Vice Commander, Marvin Worsell; Junior Vice Commander, John Ludford; Finance Officer, Frank Brancato; Adjutant, Julian Anderson; Chaplain, Earl O'Brien; Service Officer, Kenneth Weller; Sgt. at Arms, Guy Jones.

On July 12 at 2 p.m. there will be a baseball game between the American Legion and the Men's club to be played on the grounds of the Venetian Village community hall. Some time in August the Legion will sponsor a picnic for the Cub Scouts and you will hear details later. Proceeds of the annual Poppy Day sale will be turned over to the Woman's Auxiliary.

Questions about TV tubes come up often at COURTEOUS TV, and one of the most popular is, "How long should a picture tube last?"

A first line picture tube has an average efficient life of 3,000 hours according to latest electronic statistics. It will reduce 15% of its efficiency within 24 hours, and thereafter the viewing brightness will reduce so evenly that it cannot be detected by the human eye. We have had picture tubes with up to 5,000 hours of service that were still in operation, but it is surprising what a difference there exists in viewing eye strain when compared with a new one.

This viewing strain should be avoided when you watch television daily. If your TV picture tube seems dull, let us check it for maximum efficiency. Phone Antioch 144.

Ladies' Auxiliary of St. Ignatius' Church

## See the Difference?

(No Center Posts!)

188-hp Buick SPECIAL 6-Passenger, 4-Door RIVIERA, Model 43

This 4-Door Beauty  
is the Newest Hit in Hardtops

YOU certainly ought to come see  
why this new kind of hardtop is  
headed for the best-seller list.

It's a Buick Riviera, of course.

Which means the low and rakish  
look of a Convertible—a solid steel  
roof overhead—and no center posts  
in the side window areas to obstruct  
your view.

But that's only the beginning.

Here you get two extra doors. They  
open to the rear compartment. So no  
one in the front has to move when  
someone gets into or out of the rear.

Here you get massive half-pillars on  
either side on which the front doors  
latch and the rear doors hinge. (That's

why you see no center posts above the  
door line.)

Here, too, you get wholly new structural  
principles in body design and  
strength that give this beauty the  
extra safety of rock-firm solidity at  
the top, sides and bottom.

And here—bless those Buick engineers!—you get a lot more room in the  
rear compartment. For the 4-Door  
Riviera gives you over 9 inches more  
hiproom and 5 inches more legroom—  
yet with no increase in wheelbase or  
over-all car length.

So we repeat—you certainly ought to  
come in and see this stunning new  
kind of hardtop.

It's the last word in beauty, com-  
fort, convenience. It's available in  
Buick's two lowest-priced Series—the  
SPECIAL and the CENTURY. And  
it's all Buick—power, ride, handling  
and the spectacular performance of  
Buick's Variable Pitch Dynaflow.\*

Drop in today—tomorrow at the  
latest—and learn what Buick's all-  
time record sales year can mean to  
you in the way of a whopping-big  
trade-in deal.

\*Variable Pitch Dynaflow is the only Dynaflow Buick  
builds today. It is standard on ROADMASTER, optional  
at modest extra cost on other Series.

Thrill of the year  
is Buick

## Misplaced: Three Famous American Cornerstones!

**WASHINGTON** — How can you lose a cornerstone which may weigh several tons? This is the question. Federal authorities are pondering in the wake of a hunt for New York City Hall's cornerstone. Missing are the cornerstones of the White House, United States Treasury and Washington Monument. Apparently they are obscured by additional building and a dearth of records.

The Washington Monument was dedicated on July 4, 1848, amid a throng of 15,000 spectators, including Mrs. Alexander Hamilton, Mrs. Dolley Madison and George Washington Parke Curtis, Martha Washington's grandson. The trowel was the one wielded by George Washington at the laying of the Capitol cornerstone in 1793.

Into the monument's cornerstone went over 70 mementos, including Washington's portrait and coat of arms; a city map; census; housing and tax statistics; all United States coins from the gold eagle \$10 piece to the half dime; and newspapers (New York Daily Sun, Mobile Register and Journal, Baltimore Daily Sun and the Western Citizen of Paris, Kentucky).

But today no one knows where the cornerstone may be found, although it is presumed to be somewhere in the northeast corner, probably hidden by subsequent foundation enlargement.

Tradition has it that President Andrew Jackson handed the mason a lock of hair from his granddaughter's head along with one of his messages to Congress, to be placed in the cornerstone of the Treasury. But the stone cannot be found in the granite building erected in stages after 1836.

Before the White House renovation in the early 1950's, mine detectors were used in an attempt to find a metal plaque indicating the cornerstone location. But, if located, the cornerstone remained untouched and it is not known if somewhere in the White House structure there lies a repository of mementos of the capitol's early life.

### Cadet Skips Drills Without Demerits

**NEW BRUNSWICK** — An Air Force ROTC cadet has missed drills and more drills without drawing a single demerit from officers at the Rutgers University detachment. And the cadet isn't the colonel's boy either!

In fact, this particular cadet couldn't be anybody's boy; she happens to be a pretty young lady named Eve Winant.

Miss Winant, a Douglas College senior now finishing up her second year in the advanced AFROTC at the State University's men's college, became a celebrity of sorts when she was accepted—informally—as the first female ROTC member in the history of State University.

At Rutgers—traditionally a men's college—Miss Winant found that the students were surprised to have a girl in their class. "I think they considered it an intrusion of their right," she says. "There were very few who would even say 'Good Morning' to me for the first month or so."

All this changed now, though, and Miss Winant is very much a part of the senior AFROTC class at Rutgers University—that is, all except for Tuesday afternoon drills.

### Bedridden Scholar Earns College Degree

**DETROIT** — Nick Kobane, 38, has earned a college degree—the hard way. For 17 years Kobane has been a patient at Receiving Hospital, paralyzed from the waist down since he was shot by a Detroit policeman who mistook him for a burglar.

Now, after seven years of study, he has a bachelor-of-arts degree in chemistry from Wayne University.

### Oregon Senator Wants Abbreviation Accord

**WASHINGTON** — Oregon has been a state for 98 years and it's high time, believes Senator Neuberger, that everybody agrees on the proper abbreviation of her name.

Neuberger (D., Ore.) cites several authorities in support of "Oreg." So "Oreg." it ought to be, he contends.

### Women and Horses

**LONDON** — A divorce-court judge believes "Women are like horses—they need their heads some times."

Judge Samuel Richards Edgedale made the comment in dismissing a young wife's petition for a divorce on grounds of cruelty but cautioned the husband about "keeping too tight a rein" on her.

The judge advised the young couple to consult a marriage-guidance council.

## MILLBURN

Regular services at Millburn Congregational church July 10 include Sunday School at 9:45 a. m. and church services and communion at 11 a. m.

Baptismal services for Tina Odette Sherwin, daughter of Mr. and Mrs. Vaughn Sherwin were held Sunday morning. Sponsors were Mr. and Mrs. Kenneth Young.

Mr. and Mrs. John Thain announce the arrival of a daughter, Kathy Ann born Friday at Condell Memorial hospital.

Mr. and Mrs. Herbert Messner and son, Herby, visited Mrs. Elsa Lutz of Chicago on Thursday evening.

Mr. and Mrs. Oscar Neahous enjoyed a picnic at the home of their son, Jack Neahous at Russell, Sunday.

Mr. and Mrs. Edward Hoffman, and son George visited their son, Richard, at Michael Reese hospital Thursday.

Eighteen members and three guests of the Mylo club met at the home of Mrs. Howard Bonner with Mrs. Walter Staugard as co-hostess. A surprise shower of kitchen utensils was given Mabel Chope. Talent night among the members took care of the program. The guests were Mrs. Kenneth Pollier, Mrs. Vaughn Sherwin and Mrs. Lyman Bonner.

E. A. Martin celebrated his 82nd birthday Saturday with friends in for the evening.

Mrs. Beatrice Anderson, accompanied by the Clarence Mair family of Antioch on Monday to Chicago and attended funeral services on Tuesday for Mrs. Kate Mair who passed away Thursday, after spending two weeks in the hospital following a stroke.

The Rev. Glen D. Strang of Rockelle, Ill., who was counselor for two weeks at the Presbyterian Youth Camp at Druce Lake called on his aunt, Mrs. L. S. Bonner Wednesday.

The Oliver Patch family of Waukegan, Robert Wells and family and Mrs. Sophronia Murrie had a picnic dinner at the Ernest Wells home Monday.

The Ladies Aid entertained the Mylo club on Thursday evening. The program consisted of several musical numbers by Sharon Weber, Randy DeHaan and Margaret Paulsen and Sandy Stephens, accompanied by Mrs. Ida Truax and Mrs. Theodore Frank of Waukegan, gave a very interesting talk on her trav-

els in Egypt after which refreshments were served.

Mr. and Mrs. Frank Ryan left Friday for a few days visit with relatives in Minnesota.

Miss Ruth Minto is spending this week in Chicago as a delegate to the Conference of National Education Association held at the Conrad Hilton hotel.

Mack Johnson of Narrows, Va., who is attending the N. E. A. convention in Chicago spent the weekend with Richard Martin.

Mrs. Harley Clark, Mrs. John Haisma, Mrs. Albert Smith, Mrs. Frank Edwards and Jeanette and Dorothy Chope attended a miscellaneous shower at the home of Mrs. Howell Kemler in honor of Miss Joanne Headington on Sunday afternoon.

The Study Group will meet at the home of Mrs. L. H. Messersmith July 14 at 9 a. m. to 11 a. m.

Mr. and Mrs. Frank Edwards spent Sunday evening at the John Edwards home in Libertyville.

Susan, Larry and Patrice Slivka returned to their home in Madison, Wis., Friday after spending several days at the Rev. L. H. Messersmith home.

J. Ellen Engh returned to her home in Wadsworth Wednesday after spending a few days with her grandparents, Mr. and Mrs. Harley Clark.

Mr. and Mrs. Vernon Cumberly and four children and Rebecca Anderson left Saturday morning for several weeks vacation at Three Lakes, Wis.

Mrs. Mary Louise Klute of Niles, Mich., called on her aunt, Mrs. Leslie Bonner, Thursday.

Mr. and Mrs. J. R. Kavelage and family of Dubuque, Iowa, were week-end guests at the home of their parents, Mr. and Mrs. Carl Hughes.

Mrs. Irene Taylor of Neepawa, Manitoba, Canada, and her son, Merrill Taylor of Glen View were callers at the Gordon Bonner home Saturday evening.

Mr. and Mrs. Robert Clark and daughter and Mr. and Mrs. James Lahey and family spent Monday at the Ed Clark home in Gurnee.

Mr. and Mrs. Albert Smith and family and Mrs. Myrtle Savage enjoyed a picnic at Homer White's, Monday.

Mrs. Charles Connelley of Highland Park, Mr. and Mrs. Ellis Gott, Mrs. Douglas Thaxton and Mrs. Donald Strandberg, all of Waukegan, were guests at the Mrs. Lyman Bonner home Saturday evening.

Mr. and Mrs. Robert Clark and daughter and Mr. and Mrs. James Lahey and family spent Monday at the Ed Clark home in Gurnee.

Mr. and Mrs. Albert Smith and family and Mrs. Myrtle Savage enjoyed a picnic at Homer White's, Monday.

Mrs. Charles Connelley of Highland Park, Mr. and Mrs. Ellis Gott, Mrs. Douglas Thaxton and Mrs. Donald Strandberg, all of Waukegan, were guests at the Mrs. Lyman Bonner home Saturday evening.

Mr. and Mrs. Robert Clark and daughter and Mr. and Mrs. James Lahey and family spent Monday at the Ed Clark home in Gurnee.

**Weed Control Methods  
To Be Taught at Oat  
Variety Demonstration**

Weed control will be one of the subjects to be discussed at a meeting to be held at the L. A. Huebsch Oat Variety demonstration test plot tomorrow, July 8, according to Ray T. Nicholas, farm adviser. The meeting will start at 1:30 p. m. The L. A. Huebsch farm is located on

route 63 about  $\frac{1}{2}$  mile south of Route 178.

Extension specialist W. O. Scott, who will be on hand to discuss oat varieties, will discuss the latest methods of weed control on the farm. Mr. Scott will tell about the effectiveness, and the precautions to be observed in using the latest weed control chemicals.

All farmers interested in the latest methods of weed control are invited. This meeting is another in

a series of educational meetings sponsored by the Agricultural Extension Service of Lake county to acquaint farmers with the last production methods, says Ray T. Nicholas, Lake County extension service representative.

**Oat Varieties to Be Discussed**

Which variety of oats is best for

Lake County? This and many other questions will be answered at the oat variety demonstration test plot meeting.

There are 16 varieties in the plot, including Nemaha, Rodney, Brandt, Craig, Sauk, Bonda, Clinton 59, Clinton 25, Clarion, Clinton, Semco, Mo. 0-205, Waubay, Garry, Clinton

tafe, Andrew.

Extension Specialist W. O. Scott will discuss the important characteristics of each variety, tell how each variety resists disease, and give past yields of each variety under conditions similar to ours.

**County Fair to Give  
Opportunity for 4-H  
Clubs to Show Projects**

Lake County's 27th Annual Fair and 4-H Club show is now less than one month away. The fair opens on Thursday, July 28, and will continue through Sunday night, July 31. This year's fair will again be held on the Wauconda Grade School grounds and in the school buildings.

The Lake county fair is the only event of its kind in Lake county, according to Ray T. Nicholas, Farm Adviser. It combines everything for all ages and interests. There is the midway with its thrill rides and carnival, the huge commercial tent where many of Lake County's enterprising merchants display the newest farming and homemaking equipment; the rows of tables with thousands of culinary, domestic, and fine arts exhibits; a large array of flower, vegetable, and agricultural products exhibits, and the livestock and poultry tents in which are exhibited the prize animals of Lake County, many of which are tops in the midwest.

To the more than 1000 4-H members in Lake County, the County Fair and 4-H Club Show offers an opportunity to display to the fairgoers the best results of their farming and homemaking projects. Between now and show time, these youngsters are busily engaged in growing prize winning vegetables and flowers, feeding and grooming their livestock, putting the finishing touches on their garments, and learning the latest skills in turning out culinary delicacies.

A day spent at the Lake County Fair will convince everyone that Lake County has its share of skilled farmers, homemakers, and young people.

**OUR DEMOCRACY** — by Mat  
**DOWN BY THE OLD MILL STREAM**

MANY SONGS, MANY BOOKS, MANY PICTURES CELEBRATE  
OUR RIVERS.

WE DRINK FROM THEM, FISH AND SWIM IN THEM, ROW ON THEM.

THEY BEAR OUR COMMERCE AND ACCOMMODATE OUR INDUSTRIES.

TOO OFTEN WE ABUSE OUR STREAMS, LITTERING THEIR BANKS  
AND POLLUTING THEIR WATERS, SO THAT MANY OF THEM  
ARE FIT NEITHER FOR MAN NOR FISH.

FORTUNATELY, WE ARE TAKING STEPS TO CONSERVE THEIR  
VALUE, BOTH TO THE LOCAL COMMUNITY AND THE NATION,  
BY RESTORING THEM TO SOMETHING LIKE THEIR  
ORIGINAL CLEANLINESS AND BEAUTY.
